**RE: Outfitters Quote**

Please return the app to us by fax or mail along with your current hold harmless waiver & any brochures you may have. (No quote will be made without a waiver, please contact us for a blank to modify for your business if needed). Please fill out the application clearly & completely using black ink, using the N/A box wherever appropriate. Please pay strict attention to the box on the first page that says "Required Attachments". For the fastest service on the quote, don't leave ANY blanks & be sure to fill in the appropriate Forest Service addresses for additional insureds (that is all names & addresses for all Forests or private land that you will use).

Thanks for your inquiry,  
Georgia
